

Our Luxsan acrylic bathroom products are infused with Microban® antimicrobial product protection to help prevent the growth of odor and stain-causing

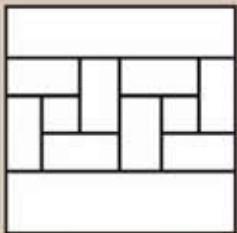

bacteria, mold and mildew. Microban protection is built-in during manufacturing so it won't wash off or wear away. Your bath is easier to clean and stays cleaner and fresher between cleanings.

MICROBAN® is a registered trademark of Microban Products Company. Luxsan-3000 is a registered trademark of Luxury Bath Liners, Inc.
